Client Relationship & Stakeholder Management | Team Leadership | Enterprise Account Operations | Escalation Management

PROFESSIONAL SUMMARY

Client relationship and operations leader with 9+ years managing enterprise accounts, multi-channel client support (voice, chat, email), and cross-functional stakeholder relationships at scale. Currently leads an 8-person analyst team as the primary point of contact for Fortune 500 accounts, maintaining continuous client engagement through a structured, evolving CX operations stack (Zendesk Suite, Zoho Desk, Genesys WEM & QM, Salesforce Admin, CRM) across the full service lifecycle, from requirements gathering through delivery and post-delivery support. Balances senior-leadership reporting and escalation ownership with day-to-day operational delivery, consistently operating within defined SOPs and KPI frameworks while building durable client trust. Advancing an MBA in Business Analytics alongside Amazon Marketing Cloud (AMC) and Google Analytics 4 (GA4) certifications.

CORE COMPETENCIES

Technical & Analytics: SQL • Amazon Marketing Cloud (AMC) • Google Analytics 4 (GA4) • Salesforce Marketing Cloud (In Progress) • Google Merchant Center • Amazon Seller/Vendor Central • Excel (Pivot Tables, Slicers, Formulas)

EXPERIENCE

Senior Team Lead — Client Operations & Feed Enrichment

Sept 2022 – Present

Feedonomics India (Cube27), Remote

- Built and evolved the team's operations tech stack for metrics, QA, and coaching — from Zoho Desk (CRM, ticketing, help center) and Toggl (scheduling, workforce management, timesheets), to the Zendesk Suite (ticketing and client support) with Tymesift and Klaus to the current setup of Salesforce CRM with Genesys Cloud CX (Workforce Engagement Management, Auto QA, dashboards, coaching, and appraisal feedback) turning activity, CSAT, TTR, FRT, quality, and escalation data into a single, structured source for team performance analysis and reviews.
- Lead and coach an 8-person data feed analyst team spanning EMEA and APAC portfolios, SOP and KPI compliance running a structured 1:1 cadence, quality reviews, and individualized coaching plans that sustain high feed accuracy and on-time delivery using Zendesk Klaus and Genesys QM.
- Served as primary point of contact and escalation owner for Fortune 500 enterprise accounts including Lowe's, Lululemon, Dell, DoorDash, L'Oréal, Puma, Groupon, Carlton One, and Fruugo — maintaining continuous client relationships across the full engagement lifecycle and resolving cross-functional and peer-manager conflicts by realigning stakeholders around shared client outcomes.
- Spearheaded a client-facing A/B testing AI categorization initiative for Fruugo across 20+ countries, working directly with the client through the testing cycle to lift match accuracy from 76.41% to 98.73% in partnership with AI tech teams — managed scope, team, and deadlines to a client-approved outcome.
- Lead client onboarding calls for new and expanding accounts, documenting requirements and technical specifications and relaying actionable updates to the analyst team, while providing hands-on technical guidance to analysts on feed optimization, attribute mapping, and troubleshooting.
- Own post-QA export creation and publishing across ecommerce channels and marketplaces — including Google Merchant Center, Meta Commerce Manager, Amazon Seller Central, and eBay — and lead root-cause investigation and resolution of feed disapprovals to keep client catalogs live and compliant.

Advertising Support Team Lead

Sept 2021 – March 2022

Amazon Development Centre, Bengaluru, India

- Led a 6-person team delivering voice, chat, and email support to Amazon advertisers, sellers, and vendors — resolving queries within SOP and escalating complex technical issues to AdOps/AdTech teams for timely resolution.
- Held team accountable to RR, FCR, AHT KPI targets through SWOT-based coaching and structured recurring 1:1 feedback cycles.

- Partnered with cross-functional teams and peer managers to resolve process conflicts and elevate service-delivery standards across advertiser and vendor-facing channels.
- Designed and delivered hands-on training on Amazon Advertising platforms, strengthening the team's client communication and account-management consistency.

Advertising Support Associate

Jan 2020 – Aug 2021

Amazon Development Centre, Bengaluru, India

- Provided voice, chat, and email support to Amazon advertisers on PPC and DSP campaign performance, SOP adherence, and issue escalation, serving as Subject Matter Expert for the support queue.
- Identified automation opportunities and built proof-of-concepts that streamlined client support workflows.
- Contributed to digital marketing strategy discussions, tracking CTR, CPC, ROAS, CPM, ACOS reporting and supporting oversight of client advertising campaigns.

Certified Specialty Mentor — Vendor Contact Management

July 2018 – Dec 2019

Amazon Development Centre, Bengaluru, India

- Mentored 8 teams of 5 associates on Amazon Seller/Vendor Central, Amazon Advertising, and Amazon DSP, raising client-communication proficiency and support quality org-wide.
- Guided teams through complex, ambiguous client support and escalation scenarios as Subject Matter Expert (SME) and Acting Associate Advisor (AA).

Vendor Contact Management Support Associate

Aug 2016 – June 2018

Amazon Development Centre, Bengaluru, India

- Delivered email, phone, and chat support to Amazon sellers, vendors, and authors across account management, catalog/listing, promotions, shipping, billing, and returns; managed vendor relationships and coordinated shipments and inventory across multiple fulfillment centers to ensure timely product availability.
- Recognized as Best Associate for multiple weeks and Employee of the Month multiple times over two years for consistently high-performing client service delivery.
